

Omar Abdelglil

Junior FrontEnd Developer | Next.JS

✉ omar.abdelglil.work@gmail.com ☎ +201224084982 📍 Alexandria, EGY 🔗 Portfolio

SUMMARY

Result-oriented Frontend Developer with a strong foundation in **JavaScript (ES6+)** and specialized expertise in **React.js** and **Next.js**. Proven ability to transform complex requirements into high-performance, responsive web interfaces using **Tailwind CSS** and **HeroUI**. Expert in managing complex state logic and optimizing API interactions with **TanStack Query** to ensure seamless user experiences and maintainable code architecture.

EDUCATION

Bachelor of Business Information Systems (BIS), Qir Higher Institutes 10/2025 – Present

- Academic Focus: Bridging the gap between software development and business logic.
- Relevant Coursework: Introduction to Programming, Management Information Systems (MIS), and Business Mathematics.
- Highlight: Maintaining a strong academic foundation while actively applying technical skills in real-world web development projects.

SKILLS

Frontend Development

- HTML5
- CSS3
- JavaScript (ES6+)

Styling

- Tailwind CSS
- HeroUI
- Responsive Web Design

Performance

- Performance Optimization
- API Integration

Frameworks & Libraries

- React.js
- TanStack Query (React Query)

State Management

- Context API
- Redux

LANGUAGES

Arabic

Native

English

Good Command

PROJECTS

FreshCart, Full-Stack E-commerce Platform

02/2026 – 03/2026

- Engineered a high-performance E-commerce architecture using **Next.js**, leveraging **Server-Side Rendering (SSR)** and Static Generation to achieve optimal SEO and lightning-fast load times.
- Implemented secure authentication flows and a robust state management system for cart and wishlist functionality.
- Designed a fully responsive UI that ensures a consistent shopping experience across all device types, focusing on clean component modularity.

Lamma Social, Social Media Application

01/2026 – 02/2026

- Developed a scalable social networking platform utilizing **React.js** and **TanStack Query** for efficient, real-time data synchronization and caching.
- Streamlined UI development with **Tailwind CSS**, creating a reusable component library that reduced styling debt and improved UI consistency.
- Optimized application performance by implementing lazy loading and advanced state management through the **Context API**

CERTIFICATIONS

Frontend Development

Diploma | Route Academy

Intensive training on React, Next.js, and Modern Web Tech.

Technical Strengths

- **Performance First:** Deep understanding of **Core Web Vitals** and optimizing React components for maximum speed.
- **Modular Architecture:** Focused on building reusable, atomic components to ensure scalable and clean codebases.
- **Modern Styling:** Expert in creating responsive, "mobile-first" designs using **Tailwind CSS** and **HeroUI**.

Soft Skills

- **Problem-Solving:** Efficiently debugging and resolving complex UI/UX issues.
- **Teamwork:** Strong collaboration using clean, maintainable code practices.
- **Time Management:** Balancing academic studies in **BIS** with professional project deadlines.
- **Communication:** Clear technical and professional communication in Arabic and English.

Tools & Tools

- **Version Control:** Git & GitHub (Branching & Collaboration).
- **Development:** VS Code, Chrome DevTools, Postman.
- **Deployment:** Vercel & Netlify (CI/CD workflows).
- **State & Data:** TanStack Query & Context API.
- **UI & Styling:** Tailwind CSS, HeroUI, and Responsive Design.
- **Design:** Translating Figma designs into functional React components.
