PROFESSIONAL SUMMARY

Passionate Frontend Developer eager to build real-world web applications using React.js and Next.js. Strong foundation in TypeScript, Tailwind CSS, and API integration with a focus on clean code and user experience. Motivated to learn, grow, and contribute to collaborative team environments. Currently exploring Backend development to become a well-rounded developer.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, HTML5, CSS3, React.js, Next.js

State & Styling: Redux Toolkit, Context API, Tailwind CSS, HeroUI, Framer Motion, Responsive Design

Performance & APIs: SSR, SSG, Lazy Loading, Code Splitting, SEO, RESTful APIs, TanStack Query

Tools & Development: Git, GitHub, VS Code, Postman, Vercel, Netlify, Figma to React, AI-assisted development tools

FEATURED PROJECTS

CineStream – Luxury Movie Streaming Interface | Next.js, React.js, TMDB API, Framer Motion, Tailwind CSS

Built premium Glassmorphism-styled movie streaming interface with Next.js App Router, integrating TMDB API for real-time data on movies, TV shows, trailers, and cast details. Implemented fluid UI animations with Framer Motion, Server-Side Rendering (SSR), and portal-based search engine for optimized rendering and strong SEO.

FrishCart – Full-Stack E-Commerce Platform | Next.js, React.js, TypeScript, Tailwind CSS, Context API

Architected high-performance e-commerce platform using SSR and SSG, achieving strong SEO scores and fast load times. Implemented secure JWT-based authentication with protected routes and robust cart/wishlist state management using Context API and TypeScript for type-safe data flows.

Lamma Social – Social Media Application | React.js, TanStack Query, Context API, Tailwind CSS

Developed scalable social networking platform with real-time data synchronization using TanStack Query for optimized caching and background refetching. Managed complex application state with Context API and built reusable component library with Tailwind CSS, reducing styling inconsistencies and accelerating development.
