

Omar Abdelglil

Junior Frontend Developer | React.js, Next.js & TypeScript Specialist

omar.abdelglil.work@gmail.com | +201224084982 | Alexandria, Egypt | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Junior Frontend Developer specializing in React.js and Next.js experienced in building scalable, high-performance web applications. Skilled in TypeScript, Tailwind CSS, and modern API integration. Focused on clean architecture, Search Engine Optimization (SEO), and delivering polished, fully responsive user experiences across all screen sizes.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, HTML5, CSS3, React.js, Next.js, TanStack Query (React Query)

State, Styling & UI: Redux Toolkit, Context API, Tailwind CSS, HeroUI, Framer Motion, Glassmorphism UI, Responsive Design

Performance & APIs: Core Web Vitals, SSR, SSG, Lazy Loading, Code Splitting, SEO, RESTful APIs, TMDB API

Tools & Design: Git, GitHub, VS Code, Postman, Vercel, Netlify, Figma to React, Atomic Design, Component-Driven Development

PROJECTS

CineStream – Luxury Movie Streaming Interface

May 2026

Tech Stack: Next.js, React.js, TMDB API, Framer Motion, Tailwind CSS, TanStack Query | [GitHub](#) | [Live Demo](#)

- Built a premium Glassmorphism-styled movie streaming interface with Next.js App Router, integrating TMDB API for real-time data on movies, TV shows, trailers, and cast details.
- Implemented fluid UI animations with Framer Motion and Server-Side Rendering (SSR) on detail pages, alongside a portal-based search engine for optimized rendering and strong SEO scores.
- Delivered a pixel-perfect, fully responsive UI across desktop and mobile, optimizing Core Web Vitals through custom loaders, lazy loading, and efficient image rendering.

FreshCart – Full-Stack E-Commerce Platform

Feb 2026 – Mar 2026

Tech Stack: Next.js, React.js, TypeScript, Tailwind CSS, Context API | [GitHub](#) | [Live Demo](#)

- Architected a high-performance e-commerce platform using Server-Side Rendering (SSR) and Static Site Generation (SSG), achieving strong Search Engine Optimization (SEO) scores and fast load times.
- Implemented secure JWT-based authentication with protected routes and robust cart/wishlist state management using Context API and TypeScript for type-safe data flows.
- Delivered a fully responsive UI with reusable React components adaptable across all screen sizes, integrating RESTful APIs for real-time product, cart, and order data.

Lamma Social – Social Media Application

Jan 2026 – Feb 2026

Tech Stack: React.js, TanStack Query, Context API, Tailwind CSS | [GitHub](#) | [Live Demo](#)

- Developed a scalable social networking platform with real-time data synchronization using TanStack Query for optimized caching and background refetching.
- Managed complex application state with Context API and built a reusable component library with Tailwind CSS, reducing styling inconsistencies and accelerating development.
- Optimized performance via route-based lazy loading and code splitting, significantly reducing initial bundle size and improving Time to Interactive (TTI).

EDUCATION

Bachelor of Business Information Systems (BIS)

Oct 2025 – Present

Abu Qir Higher Institutes | Alexandria, Egypt

- Relevant Coursework: Introduction to Programming, Management Information Systems (MIS), Business Mathematics.

CERTIFICATIONS

Frontend Development Diploma – Route Academy

Intensive professional training covering React.js, Next.js, JavaScript (ES6+), Tailwind CSS, API integration, and modern web development best practices.

LANGUAGES

Arabic – Native Proficiency **English** – Basic Working Proficiency
